Training intensity for each exercise

This graph provides information about how the intensity of the workouts in this program will change, and what contribution to the overall load each of the exercises will make. In other words, you can assess which workouts will be easier, and which — heavier.

For each exercise AtletIQ calculate a weight (or adjust the number of repetitions), so that you can perform a specified number of repetitions with a given load level.

Example 3 of 12 workouts

Workout #1 ⌚ 42 min

- Dumbbell Squat 3x8 Rest: ⌚ 70 sec moderate
- Dumbbell Bench Press 3x15 Rest: ⌚ 70 sec heavy
- One-Arm Dumbbell Row 3x15 Rest: ⌚ 70 sec heavy

General recommendations on training with AtletIQ

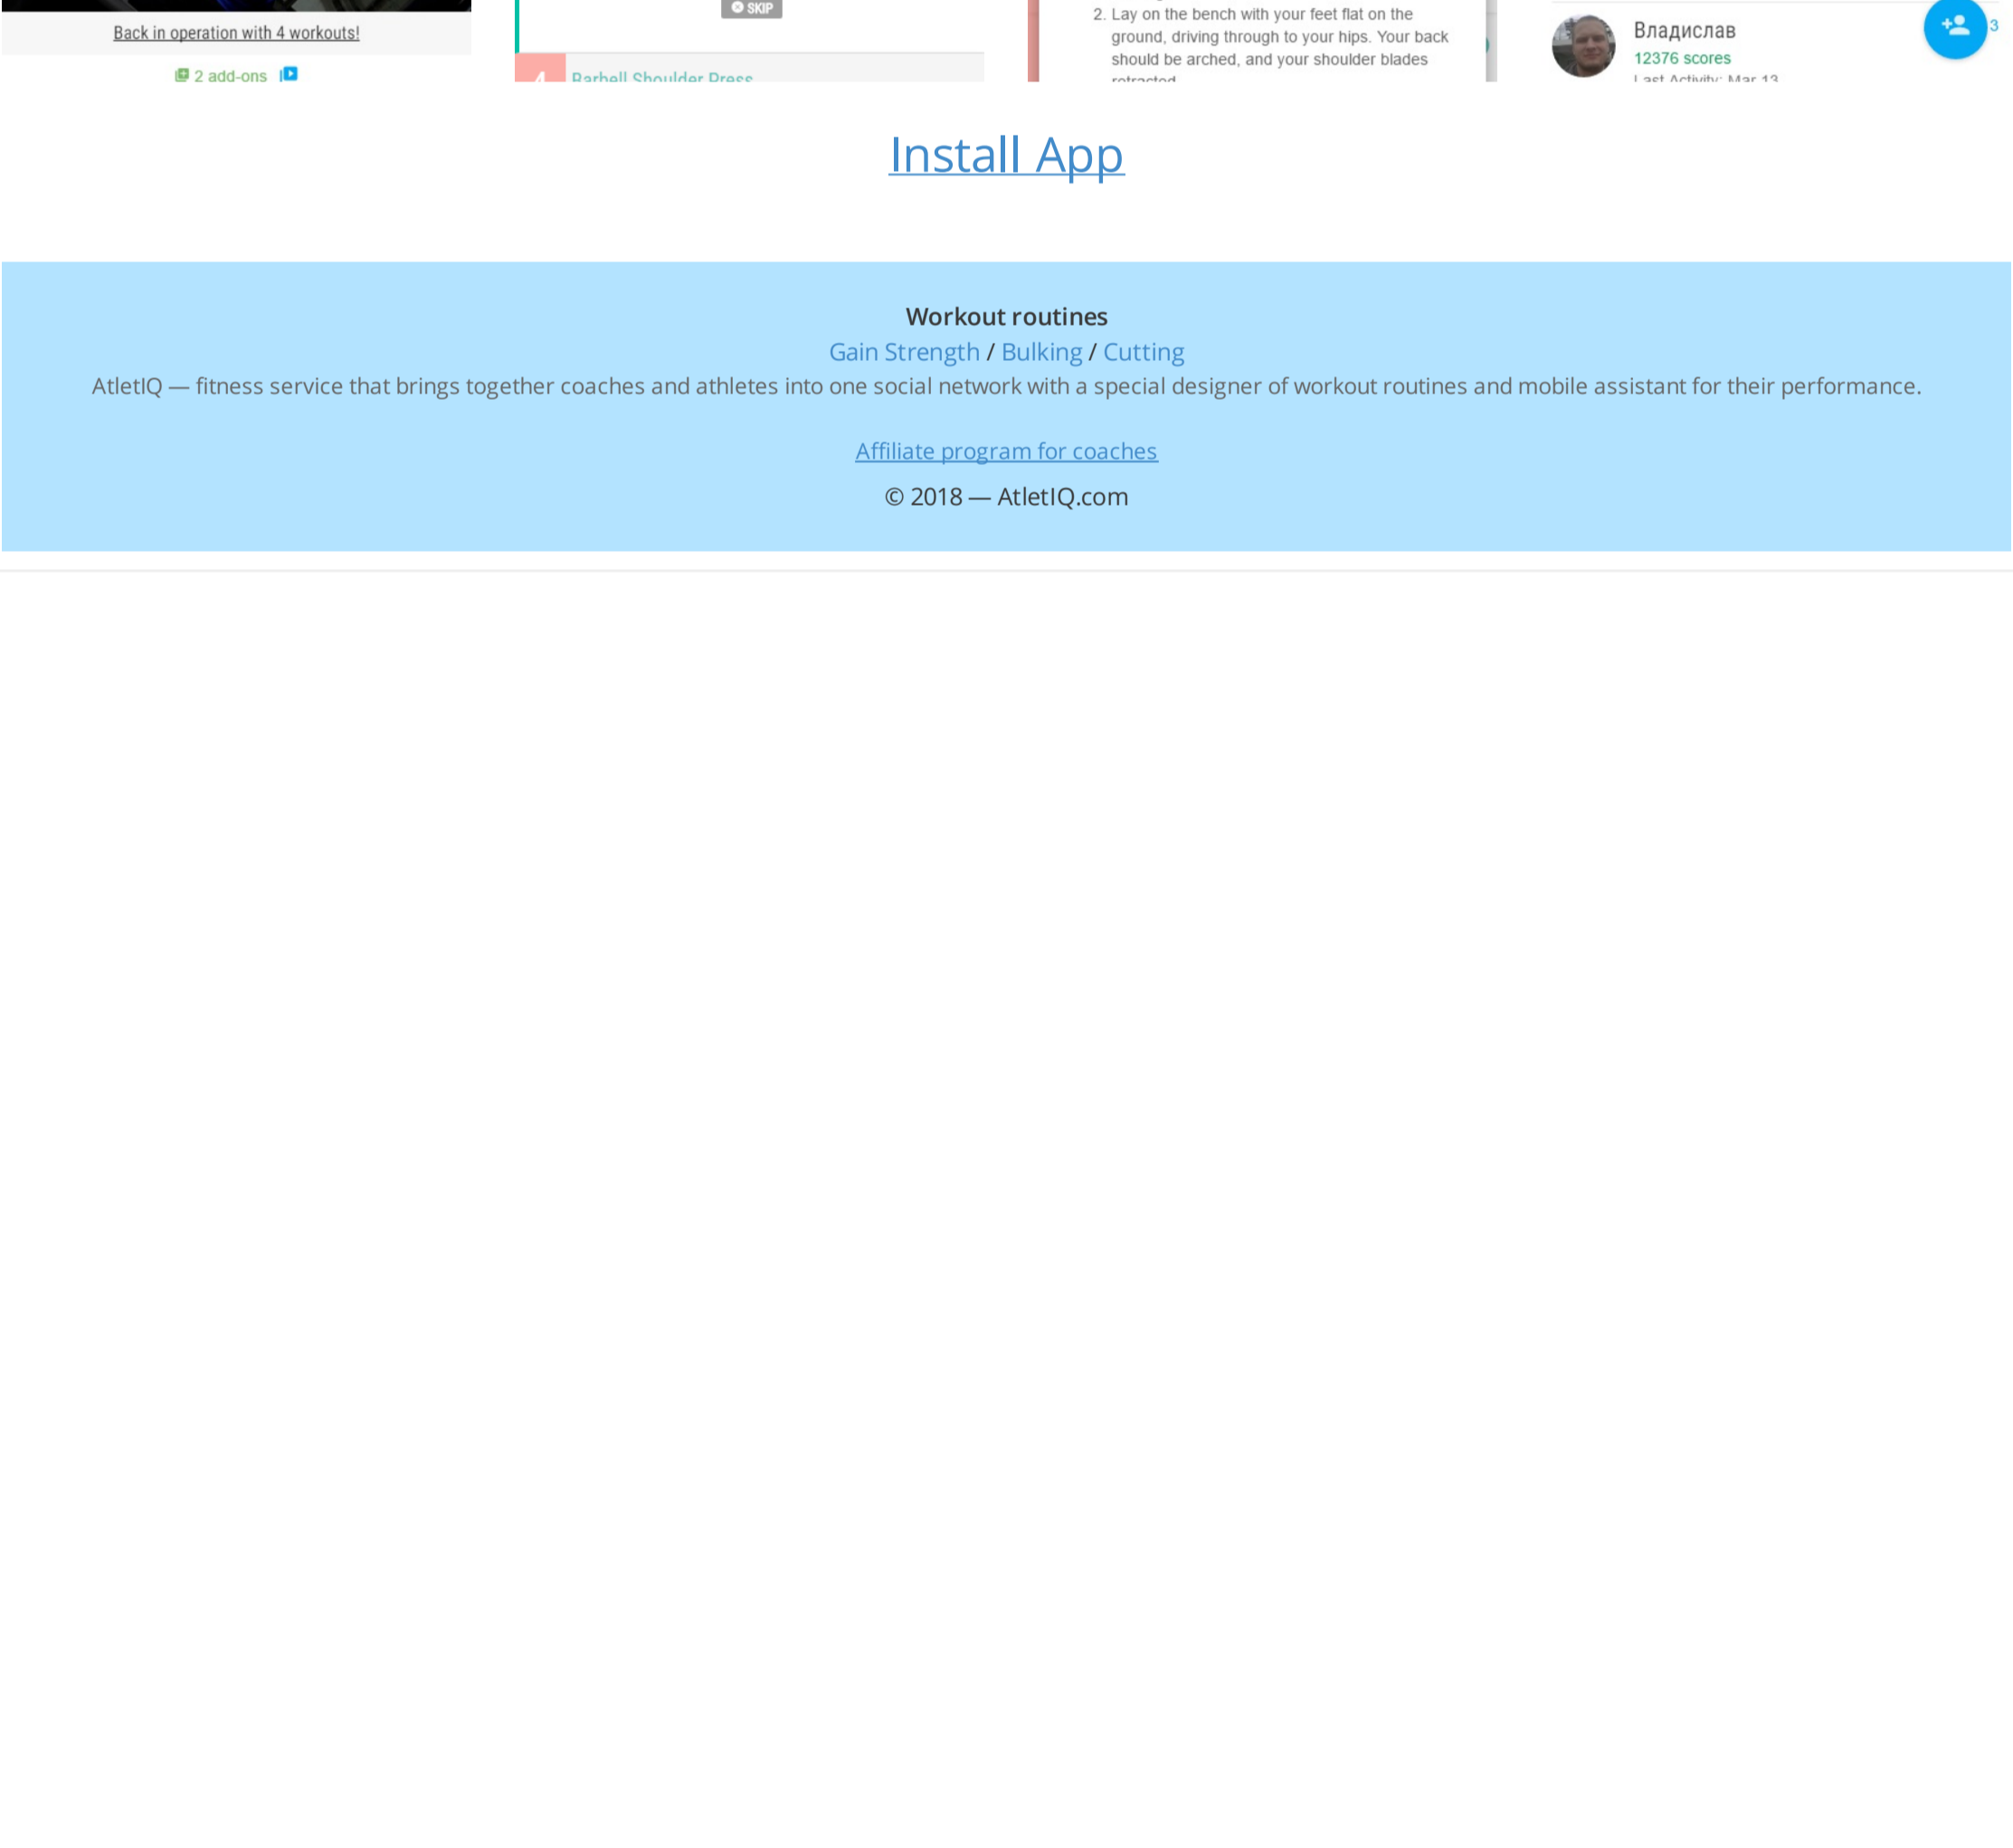

AtletIQ — a universal platform for creating training programs. All trainings are performed using a mobile application which is an interactive smart timer.

- The load in the programs is calculated relative to the maximum weight with which you can do the exercise for 1 repetition. This indicator is also calculated and adjusted automatically in the future.
- This application requires access to the Internet. There is also the opportunity to train on the special training Form, data is transferred after a workout to your personal account and are considered in the following training.
- During training, you will carry out step by step application and assess the level of load obtained after the completion of each set.
- The application will compare your score with the planned load and adjust the level of your performance in the up or down so that you will always receive a predetermined level of load according to the program.
- On training days, on which work is scheduled to failure, take care of the presence of helper
- If you go back to training after a long rest, your power rates will be recalculated in accordance with the duration of the break.
- Try to follow the weights as close to the calculated considering the capabilities of your gym
- Precisely set the instructions on the pace of the exercise, if they are specified. Otherwise, the load level will not match the the planned.

How to use mobile assistant?

Universal programs designer AtletIQ allows to keep workouts in a special format that can be read by mobile app.

Automatic timer programming, the tempo-indicator of exercise, instant adjustment of load to suit your force capabilities - these are not all application features.
