AtletIQ — a universal platform for creating training programs. All trainings are performed using a mobile

• The load in the programs is calculated relative to the maximum weight with which you can do the exercise for

• The application will compare your score with the planned load and adjust the level of your performance in the

is transferred after a workout to your personal account and are considered in the following training.

up or down so that you will always receive a predetermined level of load according to the program.

• This application requires access to the Internet. There is also the opportunity to train on the special training Form, data

• During training, you will carry out step by step application and assess the level of load obtained after the completion

• If you go back to training after a long rest, your power rates will be recalculated in accordance with the duration of the

• Precisely follow the instructions on the pace of the exercise, if they are specified. Otherwise, the load level will not match

1 repetition. This indicator is also calculated and adjusted automatically in the future.

• On training days, on which work is scheduled to failure, take care of the presence of helper

• Try to set the weights as close to the calculated considering the capabilities of your gym

How to use mobile assistant? Universal programs designer AtletiQ allows to keep workouts in a special format that can be read by mobile app.
